

## CANDIDATE SITE SAFETY DECLARATION

I understand the following Rules have been collated to make sure all candidates working for Mando Solutions' clients are aware of their responsibilities when working on any site, and when operating machinery of any kind. I understand that these Rules and expectations form part of the standard agreement between Mando Solutions and their clients to ensure that any risks to Health and Safety are kept to a minimum.

I agree to adhere to these requirements as a minimum and acknowledge that this is not an exhaustive list but that I should adopt a common sense approach with any issues when working on site. I agree to:

## Site Safety Rules / Requirements Tick Adhere to site safety rules/permit restrictions for ANY site I work on as laid down by the supervisor Actively attend any inductions required prior to commencing work Make sure I have full PPE at all times Make sure I update any machine logs / tick lists / CPCS log books at all times Take responsibility to report to Mando / Site Supervisor any concerns in a professional manner Behave responsibly and professionally at all times **Never** enter areas without authorisation Only operate machinery I am qualified and skilled to Always inspect my machine before commencing work to make sure it is safe to operate and in good working order - Including any lubrication required Highlight immediately any concerns or any defects identified on any machines to my site supervisor and Mando PRIOR to commencing work Make sure I have seen and understood any risk assessments and method statements for planned works Physically check that the quick hitch and safety pin is secure and locked before use Never lift over the heads of others - keep them at a safe distance Ensure I have a banksman in attendance when reversing Always operate machine in accordance with manufacturer's instructions **Never** misuse equipment Never risk any manoeuvre / activity if not safe or competent to do so Always make sure ground conditions are adequate for the machine and loads required Always make sure I have permission to dig where required

Please

Ensure that any machinery is parked safely and isolated before vacating the machine.  Make sure all steps and handholds are clean and in good order  Follow all required standards for safe mounting / dismounting of machinery  Working Time Directive. The following Directive is set down for reasons of health and safety and candidates agree to adhere to a working week not ensure that agreed breaks meet the following requirements:  At least 11 hours break between one shift ending and another shift starting. Anything less may be considered a double shift. I will notify Mando Solutions of any instance where I have worked a 'double shift' without fail for reasons of health & safety. If I fail to do this, I may be removed from a placement immediately.  A period of break or rest will be taken at least once every 6 hours by legislative or collective agreement.  A rest period of at least 24 hours uninterrupted once a week, in addition to the above, but on agreement that this may be occasionally considered justifiable to waive for technical, organisational or work reasons. I must notify Mando Solutions of any occasions so this can be recorded.  The above declaration has been completed, read and understood and I agree to adhere to all requirements for Health and Safety at all times.  Signed:  Date:	Keep Machine Clean and tidy at all times. Respect that the machine belongs to clients of Mando Solutions  Remain vigilant during operation of machinery to ensure risk of accident /injury / damage is kept to a minimum  Take Care of myself and others and report any problems or hazards immediately it is safe to do so to my supervisor  Pleas Tick  Ensure that any machinery is parked safely and isolated before vacating the machine.
